Hancock County Coroner
Dr. Mark Fox
200 W. Pearl St.
Findlay, OH 45840
419-424-0380

Dear Friend,

Please accept my best wishes and prayers as you enter this new phase of your life. I wish you success and happiness in your Recovery.

I am also writing to let you know about the alarming increase in opiate and heroin overdoses in Hancock County. We know of too many stories of a person who overdoses after a period of "clean" time away from opiates or heroin. This may happen after incarceration or following a short time at a treatment center. Under these circumstances, people lose their tolerance and <u>cannot safely use the dosages they could prior to incarceration or treatment.</u>

It would be best if heroin users never relapsed. Let's make one thing very clear – there is no "safe dose" of opiates or heroin – and the only way to completely avoid an overdose is to not use at all. If a person does return to using, they may die if they try to resume using the same dose they last used. Some things shown to reduce deaths from opiate and heroin overdose when a person relapses include:

- Not using alone, but instead having other people around in case problems occur.
- Using smaller doses than the dose used before getting "clean."

Furthermore, any use in combination with any other drug or alcohol greatly increases your tisk of a fatal overdose.

If you have any questions about this packet, suggestions for additional information to include, please contact any of organizations at the bottom of the page. We are all hoping for the best for you!

Sincerely,

Dr. Mark Fox, Hancock County Coroner

NEED HELP? LET'S TALK.

Connect to Mental Health and Addiction Treatment

Ohio's 9-1-1 Good Samaritan Law

Seek Help and Save a Life

The 9-1-1 Good Samaritan law will provide immunity from minor drug possession offenses for qualified individuals that make a good faith effort to obtain emergency medical assistance during a drug overdose.

Who will be a qualified individual, and what are minor drug possession offenses?

Qualified individuals are individuals that: seek assistance for another individual that
experiences a drug overdose; experience a drug overdose and seek assistance; and
experiences an overdose and become the subject of another person seeking medical
assistance.

What are the responsibilities of qualified individuals to receive immunity?

 Qualified individuals must comply with peace officers and get a behavioral health screening within thirty days of the overdose.

QUICK RESPONSE TEAM (QRT)

Within 72 hours of an overdose, the Quick Response Team will visit with the overdose survivor to help them get connected to treatment and recovery support services.

QRT HOTLINE: 419-306-6534

Call or Text to be connected with the QRT.

The QRT Hotline is confidential.

QRT Coordinator - Bill Fedirka

567-208-7697 or 419-425-5050 (Century Health)

EMIBER

Stay calm Stay with the patient If you must leave the patient place the patient in recovery position Multiple Drugs May Be Involved Overdoses may happen very quickly or over 1-3 hours

Overdoses may happen very quickly or over 1-3 hours

Wake patient up if you hear unfamiliar snoring or gurgling noises

Talk to the patient, if you know their name use it when talking to them, let
the patient know what you are doing

Keep the patient warm

THINGS NOT TO DO

DON'T put the person into a cold bath or shower. This increases the risk of

falling, drowning or going into shock.

DON'T inject the person with any substance {saltwater, milk, "speed," heroin, etc.). The only safe and appropriate treatment is naloxone.

DON'T try to make the person vomit drugs that he or she may have swallowed. Choking or inhaling vomit into the lungs can cause a fatal injury.

suspected opioid overdose: **Emergency first aid for a**

opioid overdose, these following life-saving If a person is exhibiting symptoms of an measures should be taken immediately.

1) Check to see if they can respond

- Give them a light shake, yell their name. Any response?
 - your knuckles in the middle of their chest where the If you don't get a response, try a STERNUM RUB (rub ribs meet for 10 seconds).

2) Call 9-1-1

You do not need to mention drugs when you call - provide pasic information;

- Give the address and location.
- Say "I have a person who has stopped breathing and is unresponsive".

3) Perform Rescue Breathing

- Make sure nothing is in their mouth.
- Tilt head back, lift chin & pinch nose.
- Start by giving two breaths making sure the chest rises.
- If the chest does not rise, tilt the head back more and make sure you are plugging their nose.

Give Naloxone

- Assemble the nasal spray Naloxone.
- Spray half (1 ml) up one nostril, half up the other.
- Continue rescue breathing, one breath every 5 seconds, while waiting for the Naloxone to take effect
- Give a second dose of Naloxone if there is no response in 2-5 minutes.

5) After Naloxone

- Continue to monitor their respirations and perform rescue breathing if respirations are below 10 breaths a minute.
- Stay with them until help arrives. The Naloxone may

wear off and the victim could start to overdose again.

What is Project DAWN?

overdose education and naloxone distribution Project DAWN is a community-based drug program. Participants receive training on:

- Recognizing the signs and symptoms of overdose
- Distinguishing between different types of overdose
- Performing rescue breathing
- Calling emergency medical services
- Administering intranasal Naloxone

Project DAWN is named in memory of Leslie Dawn Cooper, who struggled with addiction for years before dying of a witnessed opioid overdose on October 3, 2009 For more information on how to obtain please contact Hancock Public Health and overdose prevention kit, at 419-424-7870

Avoided **Jeaths**

With

Naloxone

naloxone distribution A community-based drug overdose education and

program

What is Naloxone?

Naloxone (also known as Narcan) is a medication that can reverse an overdose that is caused by an opioid drug. When administered during an overdose, Naloxone blocks the effects of opioids on the brain and restores breathing within

two to eight minutes.

If Naloxone is given to a person who is not experiencing an opioid overdose, it is harmless. If naloxone is administered to a person who is dependent on opioids, it will produce withdrawal symptoms. Withdrawal, although uncomfortable, is not life-threatening.

Naloxone <u>does not</u> reverse overdoses that are caused by non-opioid drugs, such as cocaine, benzodiazepines (e.g. Xanex, Klonopin and Valium), methamphetamines, or alcohol.

What are some common opiods?

Opioids include both heroin and prescription pain medications. Some common opioid pain medications include: hydrocodone (Lorcet and Vicodin), oxycodone (Percocet), long acting opioids (Oxycontin, MS Contin, Methadone) and patches (Fentanyl).

How do I know if someone is overdosing?

A person who is experiencing an overdose may have the following symptoms:

- breathing is slow and shallow (less than 10 breaths per minute) or has stopped;
- vomiting;
- face is pale and clammy;
- blue or grayish lips and fingernails;
- slow, erratic, or no pulse;
- choking or loud snoring noises;
- will not respond to shaking or sternum rub;
- skin may turn gray, blue, or ashen.

An overdose is a medical emergency! Call 9-1-1 immediately and begin first aid.

What are the risk factors for an opioid overdose?

Mixing Drugs

Many overdoses occur when people mix heroin or prescription opioids with alcohol, benzodiazepines, or antidepressants. Alcohol and benzodiazepines (such as Xanex, Klonopin and Valium) are particularly dangerous because, like opioids, these substances impact an individual's ability to breathe.

Lowered Tolerance

Tolerance is your body's ability to process a drug. Tolerance changes over time so that you may need more of a drug to feel its effects. However, tolerance can decrease rapidly when someone has taken a break from using a substance whether intentionally (in treatment) or unintentionally (in jail or the hospital). Taking opioids after a period of not using can increase the risk of a fatal overdose.

Health Problems

Your physical health impacts your body's ability to manage opioids. Since opioids can impair your ability to breathe, if you have asthma or other breathing problems you are at higher risk for an overdose. Individuals with liver or kidney disease or dysfunction, heart disease or HIV/AIDS are also at an increased risk of an overdose.

Previous Overdose

A person who has experienced a nonfatal overdose in the past, has an increased risk of a fatal overdose in the future.

QUICK RESPONSE TEAM (QRT)

Within 72 hours of an overdose, the Quick Response Team will visit with the overdose survivor to help them get connected to treatment and recovery support services.

QRT HOTLINE: 419-306-6534

Call or Text to be connected with the QRT.

The QRT Hotline is confidential.

In response to an overdose, the Quick Response Team will do the following:

- Within 72 hours of the overdose, the QRT Coordinator and a Findlay Peace Officer will
 visit with the survivor and/or family members and friends.
- The Coordinator and Officer will encourage the survivor to become engaged in treatment. If the survivor wants treatment, he/she will be immediately be connected with a treatment provider.
- Local treatment and recovery resources will be provided to the survivor and/or family members and friends.
- The survivor may also request Hancock Public Health to visit to provide a free naloxone kit and information about communicable diseases.
- The Coordinator will provide follow-up and support throughout treatment and recovery.

QRT Coordinator – Bill Fedirka
567-208-7697 or 419-425-5050 (Century Health)

Are you worried about a loved one's substance use?

Stressed out? Confused? Concerned?

Don't know how to help anymore or if you are helping at all?

Want to have conversations about recovery with your loved one but don't know how to start them?

Want to improve your quality of life?

Willing to try something new?

Learn new techniques and solutions to help move your loved one towards recovery, build a healthier relationship and improve your quality of life. This class will focus on the Community Reinforcement Approach and Family Training (CRAFT) method created by Dr. Robert J. Meyers and outlined in the book "Getting Your Loved One Sober." The class sessions are facilitated by local community members that were trained by Dr. Meyers.

There are six class sessions, held once a week, with a maximum of ten participants. Participants are encouraged to attend all six sessions, but it is not a requirement. The class is free of charge. Participants are encouraged to purchase the book "Getting Your Loved One Sober" or there are books that can be borrowed during the class.

For Information on upcoming CRAFT Classes:

Call—419-424-1985 or

Email—awolfrom@yourpathtohealth.org

WITHDRAWAL MANAGEMENT (DETOX) SERVICES

If you have a need for Withdrawal Management (Detox) Services, please call **Century Health, 419-425-5050**. Century Health will be able to assist you in coordinating your treatment services, including assessment, withdrawal management (detox), substance use disorder treatment, and recovery supports.

PATHWAYS TO RECOVERY

Alcoholics Anonymous

Alcoholics Anonymous is an international fellowship of men and women who share their experience, strength and hope with each other in order to solve their common problem and help others to recover from alcoholism.

The only requirement for membership is a desire to stop drinking. There are no dues or fees for A.A. membership; they are self-supporting through their own contributions. A.A. is not allied with any sect, denomination, politics, organization or institution; does not wish to engage in any controversy; neither endorses nor opposes any causes. Our primary purpose is to stay sober and help other alcoholics to achieve sobriety and maintain recovery.

Resources: For more information and scheduled meetings in Findlay, Ohio contact Area 55 Alcoholics Anonymous at (419) 423-6273, or visit the local website at area55aa.org

Narcotics Anonymous

Narcotics Anonymous (N.A.) is a nonprofit fellowship or society of men and women for whom drugs had become a major problem. N.A. groups meet regularly to help each other stay clean. N.A. is not interested in what or how much you used, but only in what you want to do about your problem and how N.A. can help. Membership is open to all drug addicts, regard—less of the particular drug or combination of drugs used. N.A. pro—vides a recovery process and peer support network that are linked together. No fees or dues required, only the desire to stop using. *Resources:* For more information and where you can attend meetings call the Ohio Regional Help Line: 800-587-4232. You can also visit the local area website: naohio.org or the national website na.org

Creative Expressions

Creative expressions can help connect people, at all stages of life or their recovery, to that inner healing voice. Creativity can be explored through a variety of artistic disciplines. Commonly identified methods include drama, dance, music, creative writing and the visual arts, including photography. All these activities engage the participant/artist in a process that uses a holistic health framework to access physical, mental, spiritual and social well-being. The benefits of creative expression do not end at any particular age, opportunity to be artistic as they move into adulthood. It can be utilized to express thoughts and feelings that are too big or too difficult to put into words.

Resources: To learn more about different classes offered contact Focus on Friends Recovery Center (Free of charge): (419) 423-5071. Or stop in at 509 Trenton Avenue Findlay, Ohio. You can also contact the Arts Partnership (Charges may apply): (419) 422-4624 or visit their website: artspartnership.com

Heroin Anonymous

Heroin Anonymous (H.A.) is a non-profit fellowship of men and women who have found a solution to heroin addiction. HA is a fellowship of complete abstinence from all drugs and alcohol. The only requirement for membership is a desire to stop suffering from heroin addiction no fees or dues required. H.A. is not allied with any sect, denomination, politics, organization or institution; does not wish to engage in any controversy and neither endorses nor opposes any causes. The primary purpose of H.A. is to stay sober and help other heroin addicts to achieve sobriety and maintain recovery.

Resources: For more information and scheduled meetings contact the Ohio help-line: 1-888-699-7556. or visit the website: heroinanonymous.org

Celebrate Recovery

Celebrate Recovery offers people the opportunity to participate in a group fellowship where love and hope are combined with seeking God's purpose for our lives without charge. The feeling of being HURT is an emotional reaction to another person's behavior or to a disturbing situation such as abuse, abandonment, codependency, divorce or other relationship issue. A HABIT is an addiction to someone or something. Examples include alcohol, drugs, food, gambling, shopping, and smoking to name a few. HANG-UPS are negative mental attitudes that are used to cope with people of adversity. Some examples include anger, depression, fear and unforgiveness.

Resources: To learn more about celebrate recovery contact your local CedarCreek.tv located at 1800 Tiffin Ave. in the back of the Findlay village mall you can also email celebraterecovery@cedarcreek.tv or visit the website: CelebrateRecovery.com

SMART Recovery

SMART Recovery is a self-empowering addiction recovery support group. Participants learn tools for addiction recovery based on the latest scientific research and participate in a world-wide community which includes free, self-empowering, science-based mutual help groups. SMART Recovery's 4-Point Program® helps people recovery from all types of addictive behaviors, including: alcoholism, drug abuse, substance abuse, gambling addiction, and addiction to other substances and activities. SMART Recovery believes that each individual finds his own path to recovery. For some participants, that path may include 12-step programs, like Alcoholics Anonymous (AA) or Narcotics Anonymous (NA), or other self-empowering groups. Although the SMART Recovery approach differs from each of these approaches in various ways, it does not necessarily exclude them.

Resources: To learn more about SMART Recovery and meeting information contact Focus on Friends 509 Trenton Ave or call (419) 423-5071. You can also visit yourpathtohealth.org or smartrecovery.org

In a crisis situation please call the crisis hotline at (888) 936-7116

For additional information on services, dial 211. Additional online resources may be found at the following websites:

hazelden.org, samhsa.gov, samhsa.gov/gains-center, recoveryanswers.org

Emotional Recovery/Wellness

One of the most common motives for turning to alcohol or drugs is an inability to deal with emotions. Emotional Wellness implies the ability to be aware of and accept our feelings, rather than deny them, have an optimistic approach to life, and enjoy life despite its occasional disappointments and frustrations. When people give up alcohol or drugs they will become physically sober. This ending of the addiction is always positive step, but it may not be enough to ensure happiness in sobriety. This is because the individual will still be expected to deal with their emotions and now they will not have a chemical crutch. By making a determined effort to develop in recovery the individual is able to become emotionally sober. This can take years to accomplish but it will lead to greater happiness in life.

Resources: To get help with emotions contact Century Health at: (419) 425-5050. (Charges based on income) You can also go to Emotions Anonymous meetings for free at eachat.webs.com or Stepchat.com

Exercise

Exercise can be one method to compensate for stressors. Physical exercise not only promotes overall fitness, but it helps you to manage emotional stress and tension as well. Exercise can also aid in relaxation and improve sleep. For one thing, exercise can emotionally remove one temporarily from a stressful environment or situation. Being fit and healthy also increases your ability to deal with stress as it arises.

Resources: The YMCA which also offers financial assistance for memberships to those who qualify to learn more call: (419) 422-4424 or visit findlayymca.org. Local gyms: Anytime fitness open 24hrs (419) 425-4269 or visit anytimefitness.com Planet Fitness open 24hrs and low membership fees (419) 422-3000 or visit planetfitness.com/gyms/findlay. Balanced Body Fitness located at 124 West Front St. (419) 306-1739 or visit balancedbodyfindlay.com

Spirituality

It can be difficult to understand what has happened to us in our lives and to find some sort of meaning behind our current circumstances. Even though we may be in recovery from substance abuse and mental health disorder, we need something more to help us during the dark hours. When we feel challenged, overwhelmed, or even excited about an upcoming new direction we're about to take, having a spiritual foundation may help in ways that we can only begin to imagine. We may consider spirituality something that only applies to a few, but not to us. We would be mistaken. Whether we believe in a Higher Power or God as we know Him, or believe in the spirit of nature or mankind in general, we know instinctively that there is something beyond ourselves at work in the universe. Resources: For a list of local churches go to churchfinder.com/churches/oh/findlay

Yoga

There are many forms of yoga, an ancient Indian form of exercise based upon the premise that the body and breathing are connected with the mind. One goal of yoga is to restore balance and harmony to the body and emotions through numerous postural and breathing exercises. Yoga, which means "joining" or "union" in Sanskrit, has been called the "search for the soul" and the "union between the individual and the divine." Among the benefits of yoga are increased flexibility and capability for relaxation. No special level of conditioning is required; yoga can be learned by nearly anyone.

Resources: Core Fitness Ltd. Offers yoga and Pilates to learn more call (419) 425-0269 or visit corefitnesspilates.com; The YMCA (419) 422-4424 or visit findlayymca.org; Open Circle Yoga Therapy with two locations; Ohio Orthopedics and Sports Medicine and 200 W. Lima St. - contact Melinda to learn more and schedule an appointment: (419) 427-9642 or email opencircleyoga@gmail.com; Harmony Yoga located at 1100 Suite C, Croy Dr. (419) 306-6136 or visit findlayharmonyyoga.com (Charges may vary depending on option)

Nutrition

Proper nutrition and hydration are vital to the substance abuse healing process because they help restore physical and mental health and improve the chance of recovery. Proper nutrition helps recovering addicts feel better because nutrients give the body energy, help build and repair organ tissue, and strengthen the immune system. Because recovering addicts have usually damaged vital organs during the course of their drug or alcohol abuse, good nutrition provides them with the nutritional building blocks they need to begin restoring these damaged tissues. Recovering addicts can use food to feel better physically and mentally. In many cases, feeling better will reduce the risk of relapse.

Resources: Apple-A-Day Nutritional Center, charges may vary, at 2021 Broad Ave., or call (419) 422-7853. You can also visit nutrition.gov to learn more about nutrition and use interactive tools for free.

Stress Management

Some people experience stress so frequently that they are unable to even recognize it. This is troubling because it means that the individual could be suffering the consequences of chronic stress without them realizing it. Once the individual recognizes that they are suffering from stress they need to deal with it. There are many options for doing this. Some people find that relaxation techniques are useful, but talking to other people, exercising, proper nutrition, Yoga, meditation, spirituality, and a supportive living environment can also be great for coping with stress.

Resources: (Charges depend on income level): To learn more about stress management contact Century Health at: (419) 425-5050; The Family Resource Center: (419) 422-8616 or freohio.com; You can also find helpful articles at Findlay Ohio's website Network of Care: findlay. oh.networkofcare.org

Meditation

Ranging from practices associated with specific religions or beliefs to methods focusing purely on physical relaxation, meditation is one of the most popular techniques to achieve physical and mental relaxation. There are thousands of different types of meditation, and many can be learned on your own. The meditative state is one in which there is a deep centering and focusing upon the core of one's being; there is a quieting of the mind, emotions, and body. The meditative state can be achieved through structured or unstructured activities. While teachers of meditative arts are readily available, some techniques can be learned though books or online tutorials. Resources: Reiki offered by Kathy Brooks (419) 722-9227 or email kbrooks@lrbcg.com; Mindfulness Mediation Group Multicultural Religious Center 2415 North Main Street Findlay, Call: 419-424-8831 or email: sassyspecs01@att.net

A Community Position on the Value of Life in Hancock County Messaging Support Document

If you know someone who needs help, please call 2-1-1 for information about local treatment and support services.

LANGUAGE MATTERS

Language is powerful – especially when talking about addictions.

Stigmatizing language perpetuates negative perceptions.

"Person first" language focuses on the person, not the disorder.

When Discussing Addictions...

SAY THIS	INSTEAD OF THIS
Person with a substance use disorder	Addict, junkie, druggie
Person living in recovery	Ex-addict
Person living with an addiction	Battling/suffering from an addiction
Person arrested for drug violation	Drug offender
Chooses not to at this point	Non-compliant/bombed out
Medication is a treatment tool	Medication is a crutch
Had a setback	Relapsed
Maintained recovery	Stayed clean
Positive drug screen	Dirty drug screen

How to Support Someone in Recovery from Addiction

- Don't judge. Many people in recovery feel judged by their family and friends. Accept them for who they are and refrain from criticism and negativity.
- Be patient. Recovery can be a long, complicated process. People often have setbacks. It's important for them to know that you support them when things get tough.
- Reinforce that recovery is possible. Like other chronic diseases, people can manage addictions successfully.
- Actively listen. Take notice of your loved one's victories and struggles.
- Encourage healthy habits. Cooking, exercising and playing games are all positive, substance-free activities you can do with a person in recovery.
- Suggest a support group. Support groups allow people in recovery to interact with and receive encouragement from others who struggle with addiction.
- Continue to offer encouragement and support.
 Emphasize that it takes a lot of courage to get help for an addiction.
- Take care of yourself. Take time to participate in activities you enjoy. Spend time with others, or consider joining a support group for friends and families of people with addictions.

Tips for Talking with a Loved One About Substance Use

- Talk with them in a quiet, private place when both of you are sober and calm.
- Try to understand the person's own perception of their substance use. Ask if they believe their substance use is a problem.
- Consider the person's readiness to talk about their substance use.
- Do not force the person to admit they have a problem.
- Express your point of view by using "I" statements, like
 "I have noticed..." or "I am concerned..."
- **Identify and discuss** their behavior rather than criticize their character.
- Let the person know that you are concerned and willing to help.
- Listen without judging the person as bad or immoral.
- Do not label or accuse the person of being an "addict."
- Treat the person with respect and dignity.
- Have realistic expectations for the person learning to manage a brain disease takes time.

Messaging Support Document content provided by:

Addiction and Recovery

What is Addiction?

Addiction reflects the highest level of progression of a substance use disorder.

Stages of Progression NO USE ABUSE ADDICTION RECOVERY CHOICE (Recreational or Accidental) INCREASED TOLERANCE

- Addiction is defined as a chronic, relapsing brain disease that is characterized by compulsive drug seeking and use, despite harmful consequences.
- It is considered a brain disease because substances change the brain's structure and how it works.
- Brain changes caused by substance use can be long lasting and can lead to many harmful, often self-destructive, behaviors.
- Addiction is characterized by inability to consistently abstain, impairment in behavioral control, craving, diminished recognition of significant problems with one's behaviors and interpersonal relationships, and a dysfunctional emotional response.
- Like other chronic diseases, addiction involves cycles of relapse and remission. Without treatment or engagement in recovery activities, addiction is progressive and can result in disability or premature

What is Recovery?

Recovery is a process of change that permits an individual to make healthy choices and improve the quality of his or her life.

- There are many pathways to recovery. Individuals are unique with specific needs, strengths, goals, health attitudes, behaviors and expectations for recovery.
- Pathways to recovery are highly personal, and generally involve a redefinition of identity in the face of crisis or a process of progressive change.
- Furthermore, pathways are often social, grounded in cultural beliefs or traditions, and involve informal community resources, which provide support for sobriety.

Twelve Principles of Recovery

For additional resources, please visit www.yourpathtohealth.org or call 419-424-1985.

Hancock County ADAMHS Board, 438 Carnahan Ave. Findlay, Ohio 45840

What is MAT?

(Medication-Assisted Treatment)

MAT is the use of FDA approved medication, in combination with behavioral therapy and recovery supports, for the treatment of opioid addiction and substance abuse.

Physicians prescribe a medication based on a patient's specific medical needs and other factors.

Effective medications include:

- Buprenorphine (Subutex, Suboxone)
- Naltrexone (Depade, Vivitrol)

How Do I Get Help?

- Contact a substance use disorder treatment agency listed on the back of this pamphlet.
- Call the 2-1-1 Recovery Helpline to learn about local services and providers.
- Visit Focus on Friends (located at 509 Trenton Avenue) to learn about current recovery groups and programming.

Low Tolerance = High Risk

Know Your Risk for Opiate Overdose

Provided by the

Medication Assisted Treatment Collaborative of Hancock County

Who is at Risk?

Anyone who uses opioids for long-term management of pain or persons who use heroin are at risk for opioid overdose. Others at risk include persons who are:

- Opioid dependent
- Stopping MAT (suboxone, vivitrol)
- Discharged from emergency medical care following opioid intoxication
- Experiencing reduced tolerance due to:
- * trying to stop using on their own * withdrawal management (detox)
 - * release from jail or prison
- * relapse of recovery
- Injecting opioids
- Using prescription opioids at higher doses than prescribed
- Using opioids in combination with other sedating substances like:
- * alcohol
- * benzodiazepines ("benzos")
- Using opioids and have medical conditions such as:
- * Hep C/HIV
- * liver disease
- * lung disease or COPD
- * suffer from depression

Tolerance

Tolerance develops when someone uses an opioid drug regularly, so that their body becomes used to the drug and needs a larger or more frequent dose to continue to experience the same effect. The brain adapts to the exposure, allowing the person to use more or a stronger dose without the respiratory system failing.

Loss of Tolerance

Loss of tolerance occurs when someone stops taking an opioid drug after long-term use. The longer a person is opioid-free, the more the brain will attempt to adapt back to its normal state.

When someone loses tolerance and then takes an opioid drug again, they can experience serious adverse effects, including overdose.

Most opiate overdose deaths occur in persons who have just gone through withdrawal or detoxed. Because withdrawal reduces the person's tolerance to the drug, those who have just gone through withdrawal can overdose on a much smaller dose than they used to take.

What are the signs of Overdose?

- Breathing is slow and shallow or has stopped
- Vomiting
- Face is pale and clammy
- Blue or grayish lips and fingernails
- Slow, erratic or no pulse
- Choking or loud snoring noises
- Will not respond to shaking or chest rub
- Skin may turn gray, blue or ashen

An overdose is a medical emergency~ <u>Call 9-1-1 immediately</u> and begin first aid

What is Naloxone?

Naloxone (also known as Narcan) is a medication that can reverse an overdose that is caused by an opioid drug by blocking the effects of opioids on the brain and restores breathing.

Naloxone is available without a prescription. There is no charge to receive a Naloxone kit at Hancock Public Health. The pharmacies at Kroger, CVS and Walgreens also carry Naloxone locally.

Mission

Focus on Friends provides peer-led support and resources to help people improve their health and wellness, live a self-directed life, and sustain their recovery.

Thank You For Your Support

Focus on Friends Would Appreciate Your Donations

Why should I volunteer as a Recovery Guide?

Volunteering has many positive benefits! As a Recovery Guide, you would have the opportunity to:

- Learn new skills
- Share your knowledge and experiences with others
- Network within the community
- Develop personal and professional skills
- Give back to the community
- Have a positive impact in Hancock County!

Become a Recovery Guide!

What is a Recovery Guide?

people who want to help others find and maintain recovery. Recovery Guides share their A Recovery Guide is a volunteer who supports and promotes recovery by helping people remove barriers and build recovery capital. Basically, Recovery Guides are knowledge, strength, and hope to help people find their own strengths and pathway to

Want More Information?

Who can be a Recovery Guide?

Volunteers can be:

- Individuals with personal lived experience in recovery from a mental health/substance use/trauma
- A family member of someone impacted by a mental health/substance use/trauma

Recovery Guides are individuals who have sustained recovery for themselves or their family. Recovery Guides are required to complete an application and training to gain the skills and knowledge needed to be a Recovery Guide.

What does a Recovery Guide do?

A Recovery Guide may be matched oneon-one with a participant in the program and commits to spending at least one hour a week with that participant. The Recovery Guide and the participant work together to help the participant begin or maintain their recovery. Recovery Guides also volunteer at Focus on Friends to interact with peers, lead classes, teach skills, or just listen.

Recovery Guides are present throughout the community, providing peer-based support to those who need it.

YOU'RE NOT ALONE SUPPORT GROUP

A support group for families who have been affected by addiction. We offer a safe place for you to sharing with others who understand you will begin to find serenity amongst the chaos.

You don't have to go through this alone!

YOU'RE NOT ALONE

Facebook- You're Not Alone (Hanock County Ohio)

Meetings are held:

2nd & 4th Wednesday of the month 7:00 pm to 8:00 pm

ADAMHS OFFICE 438 CARNAHAN AVE. FINDLAY, OH 45840

STRUGGLING BECAUSE OF A LOVED ONE'S DRUG ADDICTION?

YOU'RE NOT ALONE

A SUPPORT GROUP FOR FAMILIES
AFFECTED BY A LOVED ONE'S
ADDICTION

GOD

GRANT ME THE SERENITY TO ACCEPT THE THINGS I CANNONT CHANGE.

THE COURAGE TO CHANGE THE THINGS I

AND THE WISDOM TO KNOW THE

SHARING IS HEALING

Addiction is a disease that affects the whole family.
Have you ever lied to cover up for their mistakes?

Made up excuses for their behavior?

How many "this is the last time"s have you helped your addicted loved one?

Shut yourself out from the rest of the world?

You're not alone.

Our meetings are anonymous which means you can safely share your story. The important things is that you reach out for help so that you can begin to heal. Peace can be found in the chaos of a loved one's addiction.

By taking care of yourself first, you will have more energy and strength to help your loved one in their battle with addiction.
You can't make someone enter recovery but, you can find a place of understanding and peace for yourself while you wait for that day to come.

Like our loved ones, we need to find recovery for ourselves. It does take work but, the results are worth it.

NEED HELP? LET'S TALK.

Connect to Mental Health and Addiction Treatment

Ohio's 9-1-1 Good Samaritan Law

Seek Help and Save a Life

The 9-1-1 Good Samaritan law will provide immunity from minor drug possession offenses for qualified individuals that make a good faith effort to obtain emergency medical assistance during a drug overdose.

Who will be a qualified individual, and what are minor drug possession offenses?

Qualified individuals are individuals that: seek assistance for another individual that
experiences a drug overdose; experience a drug overdose and seek assistance; and
experiences an overdose and become the subject of another person seeking medical
assistance.

What are the responsibilities of qualified individuals to receive immunity?

 Qualified individuals must comply with peace officers and get a behavioral health screening within thirty days of the overdose.

QUICK RESPONSE TEAM (QRT)

Within 72 hours of an overdose, the Quick Response Team will visit with the overdose survivor to help them get connected to treatment and recovery support services.

QRT HOTLINE: 419-306-6534

Call or Text to be connected with the QRT.

The QRT Hotline is confidential.

QRT Coordinator - Bill Fedirka

567-208-7697 or 419-425-5050 (Century Health)
